PREFACE

This publication contains information on one of the important indicators of economic conditions in The Bahamas. Users of this information will find it a meaningful source, beneficial for planning and decision making by government, private companies, researchers and students.

The tables provide concise data arranged by sector, month and year, preceded by definitions and terminology.

This publication covers the period 2011 to 2013 and includes the number and value of Construction Permits Issued (All Bahamas), Starts (New Providence and Grand Bahama) and Completions (New Providence and Grand Bahama).

ACKNOWLEDGEMENTS

This report was produced by the National Accounts Section of the Department of Statistics, consisting of Dwayne Archer, Antonice Bethel, Rudia Miller, Denise Rolle, Stephen Thompson and Portia Tulloch, under the supervision of Clarice Turnquest.

Special thanks to Clara Lowe and Nicole Pinder of the Department of Statistics Freeport Office, staff of the Building Control Division of the Ministry of Works New Providence and Grand Bahama, the Grand Bahama Port Authority and the Department of Local Government.

The Department of Statistics thanks you for your cooperation and support over the past years and more notably for your assistance leading to this release.

DATA SOURCES

The basic data is collected by the Ministry of Works (New Providence and Grand Bahama), Department of Local Government and the Grand Bahama Port Authority. The information is collected and summarized on a monthly basis by the aforementioned organizations, then forwarded to the Department of Statistics where it is processed, analyzed, data entered and published. The Permits data includes New Providence, Grand Bahama and the Family Islands. The Starts and Completions are only New Providence and Grand Bahama.

SEQUENCE OF CONSTRUCTION

Construction **Permits** represent permission to construct, add or renovate a structure (i.e. buildings, walls, docks, etc.) at which time the estimated cost of the proposed structure is given.

Construction **Starts** represent those structures on which construction has begun.

Construction **Completions** represent those structures which are registered as being completed.

TYPE OF CONSTRUCTION

"**Public**" represents construction of buildings for public use such as schools, offices, airports, etc. by the Government.

"**Private/Residential**" represents construction of residential structures such as houses, apartments and duplexes.

"**Commercial/Industrial**" represents construction of offices, churches, malls, hotels etc. by private businesses or individuals.

DATA HIGHLIGHTS

BUILDING CONSTRUCTION STATISTICS

CONSTRUCTION PERMITS

The annual data for 2013 indicated that the total number of New Construction Permits Issued, 1462, was 23.7% lower than the 2012 figure of 1,916. There was also a decline in the value of Permits Issued over this period, from approximately \$716 million in 2012 to \$472 million in 2013, a drop of 34%. The most significant impacts during this period occurred during the fourth quarter of 2013, in Grand Bahama, where a total of 70 Permits Issued, with a value of \$19 million indicated a significant decline over the same period in 2012 when there were 111 Permits valued at \$78 million. The decrease was 37% and 75%, respectively. Activities which took place in the first quarter of 2013 in The Family Islands also impacted the decline in the value of Permits Issued. During that period the value of Permits Issued in the islands was \$190 thousand which was considerably lower than the first quarter 2012 figure of \$79 million, a decrease of 99.8%. Additionally, New Providence had an overall decrease for 2013 versus 2012 in the Value of Permits Issued which fell by 12.1% or \$55 million.

CONSTRUCTION STARTS

Data for 2013 indicate that the total number of New Construction Starts, 405, was 13.3% lower than that of 2012, which was 467. The value on the other hand showed an increase of 20%, from \$117 million in 2012 to \$140 million in 2013. In the Commercial Sector the value of Construction Starts increased substantially, 153%, from \$21 million in 2012 to \$53 million a year later. This increase was mainly the result of construction starts which took place in New Providence during the third quarter of 2013. These starts were valued at \$36 million in comparison to \$3.4 million recorded in the third quarter of 2012. Overall, the value of Construction Starts in New Providence was \$126 million in 2013, an increase of 25% over the 2012 figure of \$101 million.

CONSTRUCTION COMPLETIONS

The total number of New Construction Completions for 2013 showed a decrease of 100 units from that of the previous year, with 807 recorded in 2012 and 707 in 2013. The total value reflected a decrease of 32%, from \$317 million in 2012 to \$216 million in 2013. The bulk of this drop was reflected in the Commercial Sector for Grand Bahama, which decreased from \$87 million in 2012 to \$8 million in 2013 and in the Private Sector for New Providence which fell from \$129 million in 2012 to \$111 in 2013.
